

Lighthouse Mission

Mission Statement

“The mission of Lighthouse is to provide a safe and fun online environment centered around the game Minecraft, focused on kids and teens, but welcoming to Christians of all ages. As members, everyone is encouraged to become disciples of Christ through Bible study, prayer meetings, and learning to study the Word of God on their own. We aim to foster a culture that is kind, accepting, and supportive, where every member is welcomed and encouraged to grow in their faith and feel like a valued member of the community.

What This Means for Parents and Guardians

At Lighthouse, we're committed to more than just providing another Minecraft server. Here's what sets us apart:

☐ **Safety First** - Our server is carefully moderated, with protections in place to make it safe and age-appropriate for kids and teens.

† **Christ-Centered** - Everything we do is rooted in Biblical values. Members are encouraged to participate in prayer, devotionals, and discussions centered on Scripture.

☐☐ **Community & Kindness** - We promote a positive, uplifting atmosphere. Toxicity, bullying, or inappropriate behavior are not tolerated.

☐☐ **Spiritual Growth** - We aim to help young players not only enjoy the game but also deepen their relationship with God in the process.

☐☐☐☐☐☐ **Open to All Ages** - While our primary focus is on youth, adults who love Minecraft and

share our values are also welcome to participate or volunteer.

“ We're not just building in Minecraft — we're building faith, friendships, and a supportive digital family.

Core Pillars

These four pillars define the foundation for everything that Lighthouse does.

1. Be a Minecraft community focused around Godly Fellowship, Outreach, and Fun

We want to offer a safe and godly online hangout for Christians to fellowship together, with a focus around the game Minecraft.

2. Build disciples of Christ within the community

While we will have a lot of fun playing Minecraft together, we will be putting a serious effort into helping to build disciples.

3. Be a community that is uplifting, encouraging, and God honoring in our discussions

The attitudes and general atmosphere of Lighthouse should be one that is encouraging and uplifting. We want to honor God through how we treat one another. This applies to in-game, in Discord, or any other communication methods that we are using.

4. Be a community that helps one another

We're not just out for ourselves, but to help others.
